Oncology Group**

Message From The Convenors

On behalf of the Australian and New Zealand Children's Haematology/ Oncology Group (ANZCHOG), you are warmly invited to partner with us for the ANZCHOG 2025 Annual Scientific Meeting (ASM) to be held in Brisbane from Wednesday 30 July to Friday 1 August 2025.

Paediatric oncology and haematology are highly intertwined and collaborative specialties, with multidisciplinary care forming the backbone of therapy. The opportunity to share our collective experiences, learn about new therapies, and network with national and international colleagues is key to driving improvements in our fields. The annual ANZCHOG ASM brings together multidisciplinary professionals in research, diagnosis, treatment and rehabilitation of children and adolescents with cancer and blood disorders from across Australia and New Zealand.

The 2024 ASM attracted over 350 delegates to Adelaide and delivered an outstanding program of national and international leaders in the field, showcasing the latest developments in diagnosis and management of cancer and blood disorders through translational research. Industry partnerships were fundamental to the success of this event, including an integrated industry-led program and supported networking opportunities for attendees.

This year, we explore the theme, “**Clinical Trials Informing Comprehensive Care**,” which highlights the transformative power of clinical research in shaping the future of treatment and outcomes for children and adolescents. These trials drive the development of new therapies, refine existing care pathways, and ultimately improve survival and quality of life for children and their families

We are proud to welcome national and international experts from a wide range of disciplines, including oncology, haematology, radiology, surgery, nursing and allied health, reflecting the truly multidisciplinary nature of paediatric cancer care. These leaders will bring a diversity of perspectives and cutting-edge research that will foster in-depth discussions and drive forward-thinking approaches to clinical care. The meeting will serve as a vital platform for sharing knowledge that transcends specialties, enabling a holistic understanding of how clinical trials impact not only treatment but also the comprehensive care of children and adolescents with cancer and blood disorders.

Engagement with our industry partners is a valuable element of the ASM for our attendees, and we are excited to invite your partnership with this program. In addition, we are offering novel ways that you can partner with us to support our growing pre-ASM workshop program, and the attendee experience.

On behalf of the Local Organising Committee, we welcome you to join us in Brisbane.

Please contact our meeting secretariat's partnership manager, Rebecca Teuma, by email (Rebecca.teuma@wearemci.com) or phone (0447 440 187) to discuss partnering with the ANZCHOG 2025 ASM.
